

IMPORTANT EMISSION RECALL NOTICE

Dear Suzuki Owner:

American Suzuki Motor Corporation has decided to conduct a voluntary Emissions Recall Campaign involving certain 2008 Suzuki XL7 vehicles. According to our records, you own one of the affected vehicles.

On the affected vehicles, there are two unused pin cavities within the fuel sender wiring harness connector. To prevent moisture from entering the harness connector, the unused cavities were filled with a plug. The plug used in these cavities may have been under-size and allow moisture to enter the harness. Should moisture enter the cavities, the Malfunction Indicator Lamp (M.I.L.) may illuminate.

To correct the problem, your Suzuki dealer will replace the fuel sender wiring harness connector plugs. The recall service will be done at no cost to you for either parts or labor.

Please contact your Suzuki dealer to schedule an appointment for this voluntary Emissions Recall. To locate your nearest Suzuki dealer, please see below or call toll free (877) 697-8985 or visit our website at <http://www.suzukiauto.com>. The online dealer locator includes driving instructions and maps. Recall instructions have already been sent to your dealer and the recall can be completed in less than 30 minutes if you have an appointment. Additional time may be required to schedule and process your vehicle. If your dealer has a large number of vehicles awaiting service, there may be additional time required. If you no longer own this vehicle, please complete the enclosed postage paid reply card and return it to us.

If your dealer does not make the correction without charge and within a reasonable period of time, we recommend you contact the American Suzuki Customer Relations Department at (800) 934-0934.

IMPORTANT NOTICE FOR CALIFORNIA RESIDENTS

The California Air Resources Board requires that all applicable emission recall campaigns be completed prior to California registration renewal. If you do not have this recall campaign performed, you will not be able to renew your California vehicle registration. After completing the recall service, your California Suzuki dealer will give you a "Proof of Correction Certificate". If required, present this certificate to the Department of Motor Vehicles when renewing your California registration.

The State requires that every vehicle must pass an emission test (SMOG Check) every two years and before it is sold. Without the free service we are providing, your vehicle may be more likely to fail this test and require that you make costly repairs.

ATTACHMENT A

In order to ensure your full protection under the emission warranty provisions, it is recommended that you have your vehicle serviced as soon as possible. Failure to do so could be determined as lack of proper maintenance of your vehicle. Eligibility for the recall service will not be denied solely because you used non-Suzuki parts or had repairs performed by someone other than an authorized Suzuki dealer.

We are sorry for any inconvenience this Emission Recall may cause, but our interest is in your continued satisfaction with your Suzuki XL7.

Sincerely,

AMERICAN SUZUKI MOTOR CORPORATION

A handwritten signature in black ink, appearing to read "Chuck Halper". The signature is fluid and cursive, with the first name "Chuck" being more prominent than the last name "Halper".
